

The Swim School

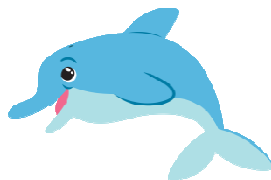

We Miss you all

2020 has thrown challenges at us that no-one could have predicted! **We miss** our Swim School Family, the soccer/cricket/basketball games, the laughter, the chatter but mostly the smiles that bring such warmth and love to our lives.

We sincerely pray that you are all coping with the extra ordinary conditions of Lockdown and staying healthy and safe.

Watching the numbers rise and hearing about the challenges that we will all face both now and in the future, is daunting, and our thoughts and prayers are with you all as we grapple to understand the implications that this will have on all our lives as we slowly emerge from hibernation, just like spring after a long winter!

Reopening of The Swim School

We are ready to open, and are just awaiting the news from the authorities – which we are hoping to have next week.

Phase 1

We do have Essential Service Permission to start with our “special needs students”, those who have been diagnosed with any medical condition, e.g. Asthma, ADD/ADHD, Autism, any syndrome etc or injury.

If your child’s medical diagnosis fits any of these categories or other medical condition and you are prepared to bring them to swimming, kindly let us know and we will schedule appointments and forward the necessary paperwork to you.

A SPECIAL REQUEST from the Teachers

Please ask the children to draw/paint/colour a happy picture for us. We will print them and brighten up The Swim School for all to see when we open.

Emergency Hotline: 0800 029 999
WhatsApp Support Line: 060-123456

“Yesterday is not ours to recover, but tomorrow is ours to win or lose.” — Lyndon B. Johnson.

THE SWIM SCHOOL

CORONA VIRUS: COVID-19

GUIDELINES FOR OUR SWIMMERS

SAFETY Procedures and Being Covid-19 Compliant

At The Swim School we believe that **Safety comes first**, so we will not break any rules or put anyone at risk during or after the Covid-19 Lockdown.

As we all know, life as we knew it will change! There will be changes at The Swim School, many of which have already been implemented.

We are Covid-19 compliant, and our sanitizers are already installed in strategic places, and we will also have hands free units at the entrances. We have all the masks and shields ready!

We are looking at acquiring a sanitizing tunnel and we are waiting for the quotes.

We have the thermometers, as well as the "log book" which will be signed by everyone entering the premises.

While we always encourage parents/grandparents to support their children during their lesson time, we are allowed no more than 50 people on the premises at any one time, so we might, on occasion have to limit the number of "spectators" in order for us to be compliant.

A special message from The Swim School

The lockdown has affected everyone, physically, emotionally and financially and we do understand the implications of these afflictions! Covid-19 has definitely shown its strength, but as always, we will rise above the challenges that Covid-19 has imposed on all of us, to be stronger and more resilient, with a greater empathy towards our fellow South Africans. Earlier this year I wrote, "Let all our decisions have a positive effect on others" and this is what we have to strive for, to create a cohesive caring Community.

Keeping you all in our thoughts and prayers as we navigate the "new normal" together.
Cecile, Lyndsey & The Team

FYI

The Teachers have used this time to upskill and enhance their ability by attending webinars and researching, and are now anxious to use these new skills when we re-open.
